Vet Clinic - 8485

Tips From The Vet!—

A PCS can be very stressful, especially when you have pets! Before any PCS make sure your pet meets export/import regulations. All pets must have an ISO compatible microchip and be current on vaccinations and endoparasite control. Please contact the vet clinic 2-3 weeks prior to your PCS date to book an appointment for your health certificate. If you're flying out of Italy on a commercial flight you will be required to obtain an export document from an Italian vet located in Aviano. It is HIGHLY recommended that you establish a POC with the Veterinary Services at your PCS destination and do your own internet research on import requirements for your destination... www.cdc.gov is a great website for this. Questions?...contact the Aviano Vet Clinic at DSN 632-8485 for further details.
